<sup>1</sup>PHYS 221-224 may be substituted.

<sup>2</sup>CHEM 425 would count as your chemistry elective; this may be replaced with a different upper-division chemistry course offered during your junior or senior year such as CHEM 321, 415, or 435.

<sup>3</sup>One or more of these courses is often taught during the **winter** semester; check the course schedule and check with your adviser.

<sup>4</sup>To meet the recommendations of the American Society for Biochemistry and Molecular Biology and the American Chemical Society, MATH 192 must be taken. However, MATH 215 (Statistics) is sufficient to fulfill the requirements for the degree.
