# Preface

The *Guide to Academic Advising* is designed to provide faculty, students, and prospective students with a current, practical, and easy-to-read advising resource to be used in conjunction with the *Southern Adventist University* catalog and *WebAdvisor*. It includes a sample course schedule for all of the majors offered at Southern Adventist University. However, this *Guide* does not take the place of the major adviser. All students must check with their department or school and their adviser before the beginning of each semester to confirm that the classes they wish to take are indeed the best ones to meet the interests of the student and the graduation requirements.

# First Year Advising

The First Year Advising team has knowledgeable and friendly advisers available to assist freshmen and new students who are deciding what classes to take for their first semester.

They also facilitate connecting students with an academic adviser in their chosen area of study to answer questions about degree requirements and other specifics related to their major.

In addition, a FREE informational webinar is hosted on a regular basis to outline the steps to get registered for classes and to provide a wealth of important information.

Both students and parents are encouraged to attend. To access the schedule and/or join as a Guest, please click on the webinar link @ <https://www.southern.edu/fya>

# Christian Service Program

Following Jesus' example, Southern Adventist University encourages students to integrate their faith in learning. The Christian Service graduation requirement is intended to help students develop the abilities to become contributing members of churches, families, groups, and communities in a global society.

The Christian Service Program gives students the opportunity to serve in two main categories: community service and service-learning. Each service opportunity must be pre-approved and the requirement is as follows:

	Community Service Activities	Service-Learning Experiences	
Summary	Community Service Days Approved Campus Ministries Student Organization Service Events	Service-Learning Classes Student-Initiated Mentored Projects Approved Mission Trip Experiences	
Goal	To expose students to the community and its basic needs.	<b>Option A: Service-Learning Courses (Level 2):</b>  To involve students in learning how academic theory and service to the community intersect.	<b>Option B: Student-Initiated Projects (Level 3):</b>  To offer students the opportunity to use their leadership skills in developing and/or supporting a service project.
Requirements	Actively participate in <b>three</b> organized and pre-approved service events (3-5 hours each).  Transferring sophomores need to complete two activities. Transferring juniors or seniors and associate's graduates need to complete one.	Complete <b>two</b> service-learning experiences. Transferring sophomores need to complete two. Transferring juniors or seniors and associate's graduates need to complete one.	
		The minimum hours required for service-learning credit is 15 regardless of project type. Clearly identified reflection opportunities are required and will be assessed by the instructor.	Students will propose and serve a minimum of 15 hours on a service project that will span an average of one semester with staff (mentor) oversight. This could be an existing project or a new project. Student must demonstrate a clear connection between the service and academic components while proving project meets a community need.
Meeting the Requirements	Examples of pre-approved community service activities include, but are not limited to: Freshmen Service Day, MLK Community Service Day, Global Youth Service Day, Flag Camp, and Westside 4 Jesus. For a complete list of available pre-approved projects visit: <a href="http://www.southern.edu/serve">www.southern.edu/serve</a>	Service-learning classes (including approved mission trip classes) can be found in the online course schedule by clicking the "General Education Requirement" tab and selecting "SERV2 Christian Service" from the menu.  By passing the course, you receive service-learning credit.	<ol style="list-style-type: none"> <li>1. Submit a proposal to the Service-Learning Department to do one of these projects. There must be mentor/supervisor for the project.</li> <li>2. Project cannot begin before approval.</li> <li>3. During the project there will be ongoing reflection (class discussion, journaling, etc.)</li> <li>4. After the project, the project mentor will evaluate the final reflection paper.</li> </ol>

*It is the student's responsibility to identify and successfully complete these requirements one semester prior to graduation.*

# Placement Tests

## English Placement

Southern Adventist University requires either the ACT and/or SAT national test scores from new students or transfer students. To be eligible to enroll in ENGL 101, a student must have an ACT English score of 18 or an SAT Writing score of 450. The English Department recommends completing ENGL 100 or an EESL class before retaking the ACT or SAT. However, passing ENGL 100 or an EESL class is not a substitute for a passing score on the examination.

## Math Placement

MATH 081 is required of all students whose ACT Mathematics standard score is 15 or below or SAT score is 360 or below. If MATH 081 is required, it must be completed before the student registers for any other mathematics course.

- ACT contains four (4) subtests: Reading, English, Math and Science. The ACT composite score is the average of the four required subtests.
- SAT contains three (3) subtests: Math, Critical Reading, and Writing. The SAT composite score is calculated by adding the subtest scores.
- The equivalencies between each test and subscores are based on the closest percentile ranking.
- The source for these conversions were taken from ACT.org and Collegeboard.org.

## Application Deadline:

For priority processing and scholarship consideration, applications of transfer students should be submitted by June 1 for the fall semester. There is no priority deadline for the winter or summer semesters.

Applications will no longer be accepted for the fall, winter or summer semester upon the first day of classes.

Students with a transfer GPA of 2.50 or above in 12 hours of major subjects may be exempt from the ACT/SAT requirement unless required by an individual department or school.

*\*Transfer students accepted on conditional standing are limited to 13 credit hours and must register for Academic Power Tools.*

# International Students

**Application Deadline:** International students must apply by June 1 for the fall semester and Oct. 1 for the winter semester. International students must also complete the acceptance process no later than July 1 for the fall semester or Nov. 1 for the winter semester, otherwise an I-20 will not be processed for that semester.

**Acceptance:** Because of the diverse educational systems used, admission decisions for international students are made on a case-by-case basis. If the secondary education was not taught in English, students must take the TOEFL test. If the score is 79 or higher, their other documents are considered for regular acceptance. The minimum score to enter our intermediate ESL (English as a Second Language) program is 45, plus the GPA requirement. Southern does not offer a beginner ESL program.

**Transcript Evaluation\*:** Academic records must be submitted through one of the following services: Foreign Credits ([foreigncredits.com](http://foreigncredits.com)) or World Education Services ([wes.org](http://wes.org)). Preferred method is Course-by-Course evaluation when available.

**F1 Visa:** There are two steps for international students to obtain a student F1 visa: 1) Academic acceptance; 2) I-20 process. The I-20 is issued after the student is academically accepted and they have submitted the Declaration of Finance, 3-month bank statement history, \$3,000 international deposit\*\*, and copy of passport photo page.

*\*Institutions located in Canada, Bermuda, and the Bahamas are exempt from the third party evaluation requirement*

*\*\*International deposit is waived for Canada, Bahamas, and Bermuda citizens.*

## Dentistry

**Adviser:** Keith Snyder

Most dental schools now require a bachelor's degree as a prerequisite for entering. Students may major in the field of their interest, but those weak in ACT / SAT scores should seriously consider majoring in a science area. Although a thorough background in the biological and physical sciences is essential to the study of dentistry, a broad educational background in the humanities is desirable. Upper division biology courses are recommended to prepare for the Dental Admissions Test and for the first two years of basic science courses in dental school.

Application to dental school should be made one year previous to the one for which admission is desired. Successful applicants should have a minimum GPA of 3.40 in both science and non-science courses as well as satisfactory performance on the Dental Admissions Test. Information regarding the Dental Admission Testing Program may be obtained from the American Dental Association, 211 East Chicago Avenue, Chicago, IL 60611 or on the web at [www.ada.org](http://www.ada.org).

**The following courses must be included to meet the minimum requirements for admission to Loma Linda University School of Dentistry**

- BIOL 151 - General Biology (I-4a) **4 hours**
- BIOL 152 - General Biology (I-4a) **4 hours**

## Medicine

**Advisers:** Joyce Azevedo, Loren Barnhurst, Ann Foster, Brent Hamstra, Lucinda Hill, Rick Norskov, Rhonda Scott, Keith Snyder, Ben Thornton, Tim Trott

Secondary school students who look forward to a career in medicine are advised to include as many mathematics and science courses during their high school years as possible.

Most applicants complete a Bachelor's Degree prior to entrance into medical school. Applicants for admission to the Loma Linda University School of Medicine should maintain a grade point average of at least 3.50 in both science and non-science courses.

Applicants are also encouraged to obtain experience where they are directly involved in the providing of health care. The Biology Department collaborates with Chattanooga's Erlanger Medical Center in a premedical preceptorship program. This program provides the opportunity for upper division pre-medical students to shadow resident physicians in the hospital.

The applicant is required to have taken the Medical College Admission Test (MCAT) prior to consideration by the admissions committee. For entrance into medical school following graduation, the student should plan on taking the MCAT by September of the senior year. All of the below required science courses should be completed by this time to insure maximum performance on the MCAT exam. To register for specific dates, see the <http://aamc.org/mcat> website.

Once or twice each year, representatives from LLU School of Medicine visit the campus to interview prospective students. Premedical students are encouraged to make appointments to speak with them.

Most medical schools are members of the American Medical College Application Service (AMCAS). Applications must be submitted through this service. The AMCAS application may be obtained from the Counseling and Testing Office, directly from AMCAS, or filled out electronically on the web. Applications are available between May 1 and November 1 for entry into medical school the following year (<http://aamc.org>). Early submission (application) is encouraged.

**The following courses must be included in the applicant's academic program. Medical schools generally do not accept CLEP or AP credits for these basic science courses. Please check the specific requirements for individual medical schools.**

- BIOL 151 - General Biology (I-4a) **4 hours**
- BIOL 152 - General Biology (I-4a) **4 hours**
- CHEM 151 - General Chemistry (I-4b) **4 hours**

\*If you have already taken Precalculus Algebra, Math 191 (Calculus I) may be taken fall semester. Talk to your advisor regarding the math course for winter sem.

\*\*Only MATH 215 counts toward general education requirements in area IN-4. MATH 192 may be taken as an elective.

\*\*\*CHEM Elective: Check with your adviser to determine which chemistry courses will be offered during your junior and senior years. Physical Chemistry II and Inorganic Chemistry will be offered the same winter semester, while Adv. Organic Chemistry will be offered in the alternate winter semester. If you wish to take Biochemistry or Instrumental Analysis as your elective, it is offered during the fall semester.

\*\*\*\*PHYS 221-224 may be substituted.

\*One or more of these classes may be taught during winter semester; check with your adviser

\*\*CHEM 425 would count as your chemistry elective; this may be replaced with a different course offered during your junior or senior year such as CHEM 321, 415, or 435

\*\*\*To meet the recommendations of the American Society for Biochemistry and Molecular Biology and the American Chemical Society, MATH 192 Calculus II must be taken. However, MATH 215: Statistics is sufficient to fulfill the requirements for the degree.

\*\*\*\*PHYS 221-224 may be substituted.

\*Passing language placement test exempts students from taking Elementary Language.

Note: Students must consult the catalog they are under and their degree audits to ensure that they have completed degree requirements. To increase their marketability, it is recommended that students take a minor in an additional teaching area. For some students, this requires taking summer course work or an extra semester.

**Important Advising Note:** The School of Nursing (SON) program at Southern Adventist University (SAU) leads to a baccalaureate degree (BS) in nursing with an embedded associate degree (AS). When you apply to SAU, you are encouraged to declare AS/BS Nursing Majors. See the **BS/AS Sample Schedule** that incorporates the classes needed to complete a BS degree in 4 years. This schedule shows only classes required for the AS degree.

**NOTE: The 2017 Admission Sequence is different.** A student admitted to begin the clinical nursing program in 2017 will take nursing classes two semesters in a row ... then takes one semester off.

#### Examples:

- 1) 2017 Winter/Summer (Fall Off) + Winter/Summer...GRAD with AS in August, 2018.
- 2) 2017 Summer/Fall (Winter Off) + Summer/Fall...GRAD with AS in December, 2018.
- 3) 2017 Fall/Winter (Summer Off) ... the usual school schedule...GRAD in May, 2019.

Finish BS in two more semesters, if planned well.
