¹MATH 191 (Calculus I) may be taken if you have already taken Precalculus Algebra and Trigonometry at the college level or have a math ACT score of 24 or higher. Talk to your advisor regarding the math course for this semester.

²MATH 192 (Calculus II) is a prerequisite for PHYS 222. If PHYS 211 & PHYS 212 are taken instead of PHYS 221 & PHYS 222, MATH 215 (Statistics) may be taken to fulfill degree requirements. If MATH 215 is taken, one additional elective credit must be taken to fulfill degree requirements.

³PHYS 211 & PHYS 212 may be taken instead of PHYS 221 & PHYS 222, and PHYS 213 & PHYS 214 may be taken instead of PHYS 223 & PHYS 224. If PHYS 211-214 are taken, two additional elective credits are required to fulfill degree requirements. Students planning to pursue a B.S. degree in Chemistry following completion of the A.S. degree must take PHYS 221-224.

⁴Courses with the RELB prefix (except for RELB 125, 255, 455, and 497) may also be taken to fulfill religion requirements for the A.S. degree.

⁵CHEM 205 (Tutoring Chemistry) is a recommended one-credit elective that fulfills Christian Service requirements. CHEM 315 (Quantitative Analysis) is a highly recommended four-credit elective for students pursuing a four-year chemistry degree or employment in chemistry following completion of the A.S. degree.
