Abstract (English): The animal production system has been affected in the Rio Grande do Sul State by low maize production, mainly non-ruminants. The total demand is not well known and official data are inaccurate and underestimated. This research characterized and analyzed the maize grain demand and supply for animal feed in the last 15 years at the Rio Grande do Sul State. The state supply was obtained from governmental harvest measurement. The demand was obtained by the total estimate (swine, poultry and dairy and beef cattle), while the total state demand was obtained using the relative national consumption from these segments in relation to the total. The current maize grain demand was at the order of 8 million tons for the feeding of swine, poultry and cattle, while total demand was between 9 to 12 million tons in the Rio Grande do Sul State. The state maize production supplied near half of the total demand for the animal protein chain, characterizing a significant deficit for this sector, providing instability and making this productive chain economically unsustainable in the state. [ABSTRACT FROM AUTHOR]

- View important information like authors, publisher, publication, and more on the items record.
- In many cases, the location of the authors is helpful in figuring out where the research took place.
- The abstract is the summary paragraph. Reading this will give you a good indication on the item's topic.
- Pay attention to the keywords used in the resources you find most helpful.
- Use the subject terms to locate additional materials on your topic. Clicking on the subject term link will begin a new search.
- Need additional sources? Explore a relevant item's bibliography to find additional materials on your topic.

Finding the Full Text

Click on the title of the item of interest.

To find the full text, click PDF Full Text, the HTML Full Text, or the Get Full-Text button on the left-side of the screen.

- Download the PDF and save to your computer or bibliographic management tool.
- Full-text not available? We will get it for you for free through interlibrary loan. Click "Get Full-Text" to go to the interlibrary loan request page.

Tools

- Save to Google Drive or OneDrive to access record in the future.
- Email yourself a link to the article and record information. Note: this does not email the article's full-text.
- Select cite to view the citation of the item in your chosen format. These citations should always be double-checked for accuracy.
- To save a link to the article, make sure to use the permalink option.
